

Classroom Technology Specs

Welcome! This document lists multimedia and backline specs in various Thornton spaces and performance venues. Most classrooms have video and audio playback capabilities. See below for more specific information.

- Please note that all of our spaces with video playback use a VGA connection. **If you have an Apple computer, you will need an adapter.**
-If you are unsure of what kind of adapter you need, follow the prompts [here](#). (Select VGA for the video port in the 2nd step).
- VGA Cables and 1/8th audio cables are provided in all spaces

Carson	2
Blue Studio	3
Red Studio	4
Roland Drum Lab	5
TMC G128	6
Hacker Lab	7
TMC G150	8
TMC G156	9
Shoenfeld Symphonic Hall	10
TMC Auditorium	11

Classroom Technology Specs

Carson

- *Backline (See below for details)*

Classroom Technology Specs

Roland Drum Lab (TMC G122B)

- Video playback: Projector with VGA connection/DVD (+CD) Player
- Audio playback: 1/8th inch connection

Classroom Technology Specs

G128

- Video playback: Projector with VGA connection/DVD (+CD) Player
- Audio playback: 1/8th inch connection

Classroom Technology Specs

Hacker Lab (G147)

- Video playback: Dual projectors with VGA connection
- Audio playback: 1/8th inch connection
- Computer station, routes to projector

Classroom Technology Specs

G150

- Video playback: Projector with VGA connection/DVD Player
- Audio playback: 1/8th inch connection

Classroom Technology Specs

G156

- Video playback: Dual projectors with VGA connection/DVD (+CD) Player
- Audio playback: 1/8th inch connection

Classroom Technology Specs

Schoenfeld Symphonic Hall

- Video playback: Projector with VGA connection/DVD Player
- Audio playback: 1/8th inch connection/CD Player

Classroom Technology Specs

TMC Auditorium

- Video playback: Projector with VGA connection/DVD (+CD) Player
- Audio playback: 1/8th inch connection
